

# LET'S GET FAMILIES CONNECTED

Routt County Collaborative Management Program is the connections for youth and family solutions

## Do you know a family who:

- is struggling to meet basic needs?
- would benefit from connection to services, like therapy, prosocial activities, respite opportunities, and community support?
- has expressed interest in services, but is unable to pay for them?
- could use goal setting and planning, whether individually or with a team of service providers they are partnered with?

## Prevention services can help!

### FACILITATED MEETINGS

Meetings for and with families who have **multiple organizations** working alongside them with the purpose of **aligning goals and next steps** for each group

### FUNDING SUPPORT

Apply for funding for needed **services and supports**; prosocial activities, one time needs, therapy, assistance with applications

### RESOURCE NAVIGATION

Work with **individual families or those who support families** to identify what has already been tried and **opportunities to connect** with new resources

### INTENSIVE CASE MANAGEMENT

Closely walk alongside families to identify their top **needs, goals, and next steps** with them

Ready to connect?
